High School Mock Trial Student Overcomes Anxiety

"We have several first-time mock trial students this year, and one asked me at practice this afternoon if I remembered her stressing about terminology when we first got the case. **Well, now she says she has learned so much that she no longer has that anxiety.** I hear this all of the time - everyone involved in mock trial learns so much, not just legal terms, but also critical thinking, public speaking, time management, bonding as a team, and so much more. Regardless of how well our teams do, I am incredibly thankful for the learning our students achieve. **Thank you for sponsoring this program.**"
